MY WHY

Navigating the various systems of Disability Benefits can be very scary and complicated. I want to be a resource and an advocate for individuals and their families when navigating these systems.

It is very important for me to spread awareness and make sure that everyone can have the knowledge to achieve their dreams.

I assist individuals with applications for benefits through Social Security and Job and Family Services. I help navigate through issues that arise while receiving benefits. I write Benefit Analysis Reports for anyone wanting to know how working will impact benefits received.
