2 Minute Drill–

Imagine…

- You know the person best and you have a 24 hour flu. You have to have someone else provide support for 1 day.
- It is someone you trust but who doesn't know the person.
- You want to give them an overview, a summary in 2 minutes of what they need to know to support the person successfully.
- What would you say?

2 Minute Drill

For:
Contributors:

In 2 minutes tell me:

- What should I know (important to/important for), and
- What should I do to make it a meaningful, safe, and enjoyable day for the person?"
